

Issue #24 – Week of December 17th, 2023

We want to hear from you and encourage you to share this newsletter with your faculty and spark conversations with relevant departments for more information.

- A **team from the JRCAI Center** presented an innovative proposal at the KFUPM Rally, titled **"Dream Even Bigger and Accomplish More: A New Alliance of International Universities from Emerging Countries."** The proposal advocates for KFUPM to establish alliances with universities in emerging and developed countries.
- As part of the university's strategic transformation to ensure our students are global citizens, self-reliant, and leaders, several groups of students from the **KFUPM Explorers program** embarked on journeys to **Japan, the UK, Singapore, and North Korea**, where they explored science and tech from top universities, allowing students to plan the trip themselves, fully supported by the university.
- The university successfully hosted its ninth student project exhibition, **"KFUPM Expo 2023"**. This event, attended by the President, industry experts, students' families, and community members, showcased a range of innovative student projects.
- The College of Engineering Department celebrates **World Energy Conservation Day** as part of the "Appreciation Weeks." The event included workshops, seminars, and enlightening talks on energy conservation.
- KFUPM hosted the **FinTech Symposium**, where International and industry experts and academia came together to discuss the emerging market of FinTech and its implications in Saudi Arabia.
- In collaboration with the **Northern Development Group**, KFUPM organized the **PulseVAD workshop** in DTVC to develop advanced LVAD technology for HFpEF patients.
- KFUPM students excelled in cracking cases on the **Consulting Championship 23'**, a joint effort by the university, EY, and Aramco to empower young Saudi professionals and nurture their potential for a career in management consulting.
